

First Church of God  
1200 W. Depoy Drive  
Columbia City, IN 46725  
260-244-5959

## **Tech Director** (Full Time)

First Church of God is a growing church in Columbia City, IN located on US 30, just west of Fort Wayne. Over the past decade, the church has seen tremendous health and growth in all areas of ministry and, in 2017 was listed as one of the fastest-growing churches in the United States. Experiencing God through prayer and worship is one of the strategies we use so that all people meet Jesus, know Jesus and follow Jesus. With this as a primary focus, we have recently undergone an upgrade to our faulty and dated technology. As new state-of-the-art audio, lighting and media were installed, it became clear that our next step was to create a position for a tech director.

### **Scope:**

The tech director will work with a team of volunteers to provide quality sound, lighting and visuals within our corporate worship gathering. With a humble heart of worship, this person will minimize distractions that can be caused by technology and use it to point people to Jesus and encourage them in their worship. This person will provide training for volunteers while giving oversight during Thursday rehearsals and Sunday morning worship. Based on skill set, this position will also include content development for Sunday morning worship gatherings. This person will also work in technical areas throughout the building to provide consistency and foundational structure for future systems.

### **Roles & Responsibilities:**

- Provides direction and leadership to Tech Ministry volunteer team.
- Works at the direction of the Worship Pastor to develop compelling and engaging worship services.
- Develops the Tech Ministry spiritually and practically by exhibiting Christian leadership, positive coaching and skill development.
- Attends all Thursday night rehearsals and Sunday morning services, giving oversight to audio, lighting and media volunteers.
- Develops lighting or media content to be used in a worship setting.
- Keeps up with the latest technical trends and continually reassesses technical systems for upgrades while maintaining current equipment.
- Trains and equips new volunteers who show giftedness in the technical area of ministry.

## **Qualifications:**

### *Spiritual*

- A follower of Jesus Christ with a servant's heart.
- A teachable spirit and a commitment to First Church of God's vision, mission, values, and culture of leadership development

### *Education*

- At least a high school diploma.
- An Associates degree or technical degree is preferred.

### *Experience*

- 2+ years working in a live production or church environment.
- Strong interpersonal and communication skills in working with and coaching people of all ages.

### *Equipment & Software*

- A working knowledge of audio consoles, in-ear monitoring systems, sound system technology and live sound
- A working knowledge of Vista lighting software and hardware
- A working knowledge of software: ProPresenter, Planning Center Online - Services, Livestream studios
- A working knowledge of Mac computer systems

## **Salary to be negotiated based on skill/experience.**
